

Midwest offers a private line of wood Rx cabinets. These cabinets are competitive and match the styles of the major brand Rx cabinets. The **Midwest** private line Rx cabinet provides for those occasions where a 'cookie-cutter' cabinet does not meet your needs.

Midwest will make any of these major brand Rx cabinets to alternate sizes. Take any 24" standard Rx cabinet and stretch it to a 30", 36", 42" or a 48" wide cabinet. Select any HPL laminate for your cabinet fronts or use standard melamine finishes. If you need a deeper cabinet or different drawer configuration, call us for a quote.

All **Midwest** private line wood Rx cabinets come with a manufacture warranty from defects in material or workmanship just like the major brands.

How to get a quote or to order:

Give us the major brand item number you want the cabinet style to match. Then tell us what size you need it to be and the finish required.
